

THE SECRETARY OF THE NAVY

WASHINGTON DC 20350-1000

JAN 6 2016

From: Secretary of the Navy
To: President, FY-17 Active-Duty Navy Captain Line Promotion Selection Boards

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

Ref: (a) FY-17 Active-Duty and Reserve Navy Officer and Chief Warrant Officer Promotion Selection Board Precept

Encl: (1) Board Membership
(2) Administrative Support Staff
(3) Statutory and Regulatory Promotion Objectives

1. Date and Location

a. The promotion selection boards, consisting of you as president, the officers listed in enclosure (1) as members, and the personnel listed in enclosure (2) as administrative support staff, are ordered to convene at the Navy Personnel Command, Millington, TN, at 0800, January 12, 2016, or as soon as practicable thereafter.

b. The boards shall proceed in accordance with all guidance in this letter, the FY-17 Active-Duty and Reserve Navy Officer and Chief Warrant Officer Promotion Selection Board Precept, reference (a), and the Statutory and Regulatory Promotion Objectives, enclosure (3).

2. Promotion Board Authorized Selections. The total number of officers who may be recommended in each competitive category shall be the number that most closely approximates the percentage set forth below of in-zone eligible officers determined as of the date the boards convene. The Chief of Naval Personnel shall determine the number of in-zone eligible officers on the convening date, calculate the number that may be recommended for promotion under the percentages set forth in the FY-17 Active-Duty Navy Officer Promotion Plan, and furnish the number to the boards. If the computation results in a fraction of a number of 0.5 or greater, that fraction is rounded up to the nearest whole number. If the computation

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

results in a fraction of a number less than 0.5, that fraction is rounded down to the nearest whole number. The boards may recommend up to the number provided by the Chief of Naval Personnel.

<u>COMPETITIVE</u> <u>CATEGORY</u>	<u>PERCENT</u> <u>TO SELECT</u>
Unrestricted Line Officer	55
Special Duty Officer (Human Resources)	60
Special Duty Officer (Permanent Military Professor)	67
Engineering Duty Officer	66
Aerospace Engineering Duty Officer (Engineering)	54
Aerospace Engineering Duty Officer (Maintenance)	60
Special Duty Officer (Public Affairs)	50
Special Duty Officer (Foreign Area)	55
Special Duty Officer (Oceanography)	55
Special Duty Officer (Information Warfare)	50
Special Duty Officer (Information Professional)	60
Special Duty Officer (Intelligence)	45
Limited Duty Officer (Line)	40

3. Equal consideration of Officers "In Zone" and "Above Zone."

As detailed above, the number of in-zone eligible officers is used only to calculate the total number of selects authorized; there are no individual zone selection limitations or expectations. Accordingly, in determining which officers are best and fully qualified for promotion, you are required to equally consider both above-zone and in-zone officers.

4. Consideration of Active-Duty Officers "Below the Zone." The board shall identify exceptional officers from below the zone and consider selecting them for promotion to the grade of captain. The board must ensure that these exceptional below-zone candidates are fully considered for promotion if they meet the best and fully qualified standard. A number not to exceed 10 percent of the total selections authorized for each grade and competitive category may be selected from below-zone unless the number calculated is less than 1, in which case the number that may be selected from below-zone is 1.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

5. Best and Fully Qualified Selection Standard

a. Fully Qualified. All officers recommended for promotion must be fully qualified; that is, each officer recommended must be capable of performing the duties of the next higher pay grade. Officers that do not meet that standard shall not be recommended for promotion.

(1) Officers fully qualified for promotion demonstrate an appropriate level of leadership, professional skills, integrity, management acumen, grounding in business practices, and resourcefulness in difficult and challenging assignments. Their personal and professional attributes include adaptability, intelligent risk-taking, critical thinking, innovation, adherence to Navy and DoD ethical standards, physical fitness, and loyalty to the Navy core values.

(2) The Navy is composed of men and women representing dozens of different ethnic groups and hundreds of cultural heritages. Fully qualified officers must be capable of leading personnel from widely varying backgrounds and mentoring a diverse workforce while executing the Navy's strategic diversity initiatives. The Navy's ability to meet this leadership challenge depends, in part, on having leaders who reflect our very best, including performance, professional experience, and education.

b. Best Qualified. Among the fully qualified officers, you must recommend for promotion the best qualified officers within their respective competitive category. Proven and sustained superior performance in command or other leadership positions in difficult and challenging assignments is a definitive measure of fitness for promotion. Furthermore, successful performance and leadership in combat conditions demonstrate exceptional promotion potential and should be given special consideration. Each board member shall apply this guidance when deliberating and voting. Additionally, members will use the considerations below to guide their determination of the best qualified officers.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

c. **Skill Requirements.** The Navy must focus on the skill sets mandated by current needs and on developing the professional competencies required in our future leadership. The Navy and joint force leadership needs to be comprised of a diverse blend of male and female officers that have excelled in both traditional and specialized career paths. You shall give favorable consideration to the critical competency/skill sets developed by officers who have excelled in specialized career paths.

(1) The following guidance, in the form of "minimum" and "requirements" language, addresses particular shortfalls in the Navy. The minimum number should only be attained if there are a sufficient number of officers determined best qualified among those fully qualified officers who address the particular shortfall.

(2) **Critical Requirements.** Currently, the Navy has a critical need for officers with the competencies/skills listed below. The selection minimum number for officers with the identified competencies/skills is provided below. This number should only be attained if there are a sufficient number of officers determined best qualified among those fully qualified officers who possess that competency/skill. The specific skills and associated numbers in the below table shall not be interpreted as quotas.

Competitive Category and Grade: Limited Duty Officer Captain		
Competency/Skill	Minimum	Requirement
6410 - Administration	1	3
6260 - Submarine Ordnance	1	3
6330 - Aviation Maintenance	2	4

(3) **Additional Requirements.** In addition to the specific critical needs listed above, the Navy must continue to develop leaders who possess the competency/skill areas listed in order of significance below. Give due consideration to demonstrated performance and expertise in these areas.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

Unrestricted Line (11X0/13X0)

1. Financial Resource Management (FM)
2. Operational Analysis (OA)
3. Joint Experience
4. Attaché Duty
5. Acquisition Corps
6. Navy Operational Planner
7. Naval Strategist Subspecialty
8. Integrated Air and Missile Defense (IAMD)

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

2. Nuclear Weapons Technical Expertise

d. Additional Considerations. The following are additional considerations in determining the best qualified officers:

(1) **Individual Augmentee (IA) / Global Support Assignment (GSA) / Overseas Contingency Operations (OCO) / Irregular Warfare / Afghanistan-Pakistan Hands (APH) Program Assignment**

(a) The board may give favorable consideration to those officers who have displayed superior performance while serving in IA/GSA/OCO/APH assignments in direct support of OCO, Irregular Warfare, and the National Defense Strategy, and in particular, those IA/GSA/OCO/APH assignments that are extraordinarily arduous or which involve significantly heightened personal risk. These individuals are developing valuable combat and nation-building skills under stressful conditions. Such assignments may not be typical of the officer's traditional community career path, and the officer may be rated by a reporting senior unfamiliar with the officer's specialty and the Navy fitness report system.

(b) IA/GSA/OCO assignments may take an officer out of the normal community career path for periods up to 1 1/2 years. APH assignments consist of extensive specialized training and multiple, non-standard deployments that may take an officer out of the normal community career path for periods of up to 3 1/2 years.

(2) **Education and Professional Development**. The board shall give favorable consideration to those officers with relevant graduate education, experience in specialized areas, and Navy and Joint Professional Military Education (JPME).

(a) The Navy values completion of graduate education and development of a subspecialty. Degrees from the Naval Postgraduate School, the Naval War College and equivalent Service institutions, and civilian education programs that result in assignment of a subspecialty code or award of Additional Qualification Designation (AQD) codes are desirable.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

Proven expertise from an experience tour utilizing that subspecialty is fundamental to development of Navy Leaders.

(b) The Navy values competitive scholarships and fellowships, examples of which include: Olmsted Scholar, Marshall Scholar, Rhodes Scholar, White House Fellowship, SECDEF Corporate Fellowship, and Federal Executive Fellowships (e.g., Politico-Military and Cyber).

(c) Best qualified officers seek opportunities to broaden their cultural awareness through experiences and education and to enable better communication in a global operating environment.

(d) Favorable consideration shall be given to the critical need for senior leaders who are Joint Qualified Officers (JQOs) as documented by an Additional Qualification Designator (AQD).

(3) Innovation and Efficiency. A critical goal of the Navy is to encourage -- to demand -- innovation and efficiency to ensure that we retain an adaptive, flexible, and effective naval force able to anticipate events and win across the spectrum of conflict. In your consideration, recognize that the continued preeminence of the Navy in the future is inextricably linked to its ability to successfully change and to manage for efficiency. Our future depends on male and female leaders who have demonstrated their awareness of this fact. Within the charter of best and fully qualified, seek to select these officers.

(a) In this age of limited resources and fiscal constraints, application of energy resource management and technology is of vital importance. Our institution must create energy solutions that make facilities and installations more energy efficient and encourage superior management of energy resources.

(b) Likewise, we must not restrict or limit the opportunity of any officer to think creatively, develop new ideas, take prudent risks, and maximize capabilities through sound management practices. Bear in mind that, in the context

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

of a changing Navy, officers demonstrating innovative thinking, efficient management skills, prudent risk taking, and effective business practices, may reflect a variety of backgrounds.

(4) Joint Officer Considerations

(a) Our ability to operate effectively with the other Services is vital to our war-fighting capability. To foster this ability, a number of officers are assigned to joint duty with the Joint Staff, the other Services, and joint organizations. To ensure our ability to conduct joint operations, the Navy is firmly committed to placing as many officers as possible in joint duty assignment billets.

(b) Success in these assignments should be given special consideration, and the statutory joint promotion objectives, delineated in enclosure (3), represent critical requirements which warrant particular consideration when determining which officers are best qualified for promotion. However, these statutory joint promotion objectives do not alter the best and fully qualified selection standard. As such, members shall only select eligible officers who are best and fully qualified for promotion even if doing so will result in a failure to meet the statutory joint promotion objectives.

(5) Acquisition Corps Considerations. Acquisition Corps officers possess the qualifications to manage the development, acquisition, and life cycle support of the Navy's current and future platforms and associated systems. The Unrestricted Line (AP), Aerospace Engineering Duty Officers, and Engineering Duty Officer communities all contain Acquisition Corps officers. In addition, contracting skills are based in the Supply Corps and Civil Engineer Corps. While there are specific needs and backgrounds in each community, there are overarching acquisition skill sets which are valued and found in all of these communities. Officers who possess these skills, regardless of the community to which they belong, are valued and necessary for the health of the Acquisition Corps, and should be considered in the broad context of the Acquisition Corps. Examples of these overarching skill sets include technical and operational knowledge of C4I, combat systems, unmanned systems, systems engineering, Enterprise information systems, information

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

technology, and weapons and major weapons systems (e.g., ships and aircraft). In determining the best and fully qualified officers for promotion, you shall give equal consideration to outstanding performance whether in an acquisition or non-acquisition position.

6. **Human Resources (HR) Community Considerations**. In addition to the basic attributes of sustained superior performance in positions of increased responsibility, the below is provided to assist in evaluating candidates:

a. Officers who have a successful track record of sustained superior performance and increasing scope of responsibilities in leadership, major staff, and/or IA/GSA/OCO/APH assignments indicate potential to succeed at the level of captain.

b. Officers who have successfully completed or have demonstrated superb performance in a commander milestone tour (to include command and staff assignments) indicate potential to succeed at the level of captain.

c. Officers who have a master's degree, particularly HR-focused (including Operations Research Analysis, Manpower Systems Analysis, Financial Management, and Education and Training (plus Information Technology for Full Time Support)), indicate an officer's potential to grasp complex human capital concepts and provide analytical rigor as a senior leader and policy maker in the HR Community.

d. Officers who have proven HR-focused subspecialties (Manpower Systems Analysis, Operations Research Analysis, Financial Management, and Education and Training Management) indicate proven application of human capital theories, concepts, and analysis and are valued by the HR Community.

e. Officers who maintain an industry recognized HR-related certification have demonstrated the ability to understand and apply myriad human capital theories, concepts, and laws/regulations critical to policy development and execution across the Navy.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

f. Designation as a JQO, a successful tour in a joint billet, and completion of joint education are valued by the HR Community.

7. **Public Affairs Officer (PAO) Community Considerations**

a. PAOs (165X) who have a successful track record of sustained superior performance and increasing scope of responsibilities in leadership, major staff, joint, numbered fleet, TYCOM, and CHINFO HQ assignments indicate potential to succeed as a captain.

b. Operational assignments for PAOs are limited and considered career milestones. Such assignments at the senior level of the 165X community include, but are not limited to, overseas or forward deployed units and staffs, CO of Navy Public Affairs Support Element (NPASE); Joint Public Affairs Support Element (JPASE); and IA/GSA/OCO opportunities. Senior PAOs who have successfully completed these assignments should be given favorable consideration.

c. PAOs who obtain a post-graduate degree from a military service college or civilian institution, either in a Navy-funded billet or independently, should be given favorable consideration.

d. Designation as a JQO, a successful tour in a joint billet, and completion of joint education are considered invaluable in the development of PAOs who are qualified to be captain COCOM PAOs and candidates for Flag.

8. **Foreign Area Officer (FAO) Community Considerations**

a. FAOs are required to serve in a broad spectrum of assignments necessitating mastery of diverse functional areas to support the success of the Navy in execution of its full spectrum of missions. In addition to possessing a solid baseline of operational experience in the fleet, the FAO community highly values the demonstration of the capacity to meet the challenges of our commitment to maritime superiority, advance our national strategic objectives, and achieve our mission. FAOs should possess: experience in the Navy's operational forces; experience in the Joint Network;

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

demonstrated leadership, commensurate with rank, within one or more of the primary critical FAO lines of effort (Security Assistance, Defense Attaché System, or major joint, operational, or interagency staff); and understanding of international engagement through operational experience and in-country tours supporting national and maritime strategic objectives. Consistent with the guidance above, the board may give favorable consideration to those officers who have displayed superior performance while serving in IA/GSA/OCO/APH assignments. The scope of assignments and responsibilities of an FAO may extend beyond language proficiency, in-depth regional knowledge, and culture awareness to include firm understanding of the aspects of developing and exploiting information to advance our maritime superiority and national strategy objectives.

b. The FAO community is organized into five sub-groups representing each of the five geographic combatant commands. FAOs are typically assigned to billets related to the region of their assignment, but operational requirements and officer inventory can result in FAOs serving outside their regional assignment.

c. All FAOs are required to have a regionally focused Political-Military master's degree. This requirement can be waived by the Assistant Secretary of the Navy (ASN (M&RA)) upon demonstration of significant regional experience and with this waiver the FAO can be assigned and perform the duties of a fully-qualified FAO without restriction.

d. Dependent upon their background, experience level, and regional assignment, the Navy makes significant investment in FAO master's education and language training (ranging from 6 to 36 months). Much of this training time will be non-observed with the length of training largely driven by language difficulty level (e.g., officers assigned to learn a critical strategic language such as Arabic, Mandarin Chinese, Korean, or Hindi will have longer training tracks). As career linguists and Political-Military experts, FAO's will accumulate considerable non-observed time during language and in-region training, and while studying for a master's degree. Therefore, this non-observed time should not be viewed as detrimental to promotion potential.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

e. Officers are laterally transferred into the FAO community based on their consistent superior performance in the fleet and demonstrated aptitude to excel as Political-Military and linguistic professionals. The majority of lieutenants assessed into the FAO community will not have met all education and language requirements due to their accession timing; however, aggressive pursuit of the requirements outlined in the previous paragraphs is highly valued prior to their application for lateral transfer. As a result, non-observed time in the attainment of this training is expected following accession.

9. Information Dominance Corps (IDC) Community Considerations

a. The IDC was established in 2009 in recognition of Information Dominance as a modern warfighting discipline. Comprising officers of the Oceanography (180X), Information Warfare (181X), Information Professionals (182X), and Naval Intelligence (183X) communities and the Space Cadre, the IDC was created to more effectively and collaboratively lead and manage the cadre of officers, enlisted, and civilian professionals who possess extensive skills in information-intensive specialties. In broad terms, Navy Information Dominance is about warfighting. The IDC aspires to deliver assured command and control, predictive battle space awareness, and integrated fires to the fleet, joint task force, and joint force commander.

b. The Navy needs officers who are agile, flexible, and fully capable of leading across the range of functions associated with the IDC, recognizing Information as a warfighting domain. As such, board members should view an officer's performance in leadership assignments as an indicator of his or her ability to lead diverse organizations across the range of IDC missions and functions. Cross-detail assignments and experience (obtained by officers detailed to an IDC billet not of their designator which will increase IDC Officer skill set diversification) is valued.

c. As of May 31, 2013, all officers in competitive categories which comprise the IDC began receiving competitive rankings, in block 42, within combined IDC summary groups on fitness reports. However, officers in competitive categories which comprise the IDC continue to compete for promotion within respective individual community competitive categories.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

As such, summary group position may not fully show an officer's position relative to competitive category peers. Board members should give consideration to additional verbiage or soft breakouts used to show superior performance within an individual's competitive category.

10. Oceanography (OCEANO) Community Considerations

a. The OCEANO community is a constituency within the IDC, which was established in 2009. The OCEANO community's core mission capability and capacity draws on the experience and expertise in the fields of meteorology, oceanography, precise time and astrometry, bathymetry, geophysics and hydrography, and is focused on providing timely and relevant support to fleet and joint operations. OCEANO officers typically develop foundational expertise in assignments at operational meteorology and oceanography (METOC) commands.

b. Demonstrated expertise in one or more of the core missions of meteorology, oceanography, precise time and astrometry, bathymetry, geophysics, and hydrography is the foundation of the OCEANO Community. Additional expertise in direct warfighting support is highly valued. OCEANO officers should have balanced professional experience, to include demonstrated leadership, operational proficiency and qualifications, and technical expertise. Proven and sustained superior performance in documented positions of leadership and in difficult, challenging, and arduous operational assignments is the ultimate test of readiness for promotion selection.

c. Education is valuable and highly regarded for OCEANO officers as it enables them to confidently lead large numbers of highly skilled civilians in challenging technical assignments. Officers who have participated in advanced education either leading to a technical master's degree or a PhD will have "not observed" fitness reports covering significant periods of the time in their careers.

d. Officers in the OCEANO Community are eligible for, and generally granted, a scientific waiver for the JQO designation requirement for flag officer promotion. However, JPME and experience are valued.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

e. Officers under consideration for promotion to captain should demonstrate superior performance within a designated Command or Milestone tour. For the rank of captain, OCEANO officers will have screened for and demonstrated success within a designated Command ashore or operational Milestone billet. OCEANO officers competing for promotion to captain demonstrate their leadership and experience at sea. These assignments include CSG Staff, CVN/LHA/LHD OA Division Officer, or Naval Special Warfare Cross Functional Troop OICs. Officers qualified for promotion to captain will have completed a technical post-graduate education with associated P-code for follow-on assignment to senior officer billets.

11. Information Warfare (IW) Community Considerations

a. The IW community is a constituency within the IDC, which was established in 2009. The IW community is built on a technical foundation underpinned by operational experience and sustained superior performance. IW Officers are directly assessed from USNA, ROTC, and OCS, as well as laterally transferred from other communities.

b. IW core mission capability is in Navy Signals Intelligence (SIGINT), Cyber, and Electronic Warfare (EW) and is principally organized into IW Commands (NIOCs, NCWDG, NCDOC) and forces are presented to the supported commander in both the fleet and in the joint arena. IW officers typically develop deep foundational SIGINT and Cyber expertise in assignments at Cryptologic Centers and NSA/CSS. For SIGINT and EW, the tactical embedded maritime and expeditionary environment is where officers are expected to demonstrate this expertise. For Cyber, the battle space is global in nature, and tactical or operational proficiency is currently demonstrated in assignments under the operational control of U.S. Cyber Command, Fleet Cyber Command, and NSA/CSS. These shore-based commands operate at the cyber tactical edge and participate in fleet and joint forces planning and execution of increasingly complex technical operations through supported and supporting command relationships.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

c. All fully qualified IW captains should have demonstrated sustained superior performance in previous milestone and major staff assignments. IW officers best qualified for promotion will have demonstrated top performance among officers who have achieved expertise in one IW core mission area and/or uncommon proficiency in several areas.

d. The best qualified IW officers will additionally have been screened for and/or completed a command tour as a commander and will have achieved advanced education (Master's degree, post graduate technical certification, or Doctorate degree) in the areas of science, technology, engineering and mathematics (STEM). Progression toward JQO completion is also valued. Fully qualified IW captains should have been screened for an IW Milestone assignment, although they may not yet have had an opportunity to serve or complete a tour in such a billet.

12. Information Professional (IP) Community Considerations

a. The IP community primarily gains officers through lateral transfer or redesignation, typically at lieutenant and lieutenant commander. For promotion eligibility purposes, some of these officers will not have completed the IP-specific community/operational leadership assignments prior to redesignation. As such, the board is encouraged to evaluate an officer's demonstrated sustained superior performance and warfare qualifications to identify those best qualified to serve in more senior IP leadership positions.

b. IP supported mission areas include the need to operate, develop, acquire, and sustain reliable and secure Cyber, Communications, Information, Space, Combat, Spectrum, and Knowledge Management systems and services. Sustained superior performance in key IP/IDC leadership assignments, joint operational experience, and operational planning experience are highly valued. Superior performance in lieutenant commander and commander Milestone billets, afloat and ashore, and a technical Master's degree should be given heavy consideration. While superior performance in command as a commander indicates potential to succeed at the level of captain, there are very limited opportunities for IP Command as a commander, so lack of assignment should not be a detractor.

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

13. Intelligence Community Considerations

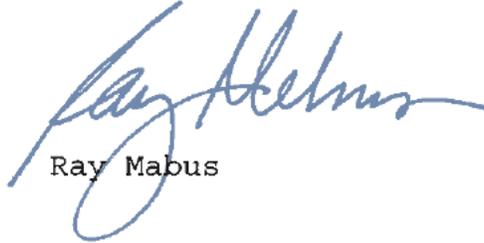

a. Demonstrated leadership and expertise in the core mission of all-source time-sensitive operational intelligence (OPINTEL) is the foundation of Naval Intelligence. Additional expertise in one or more specialized mission areas of full spectrum intelligence is valued, to include intelligence surveillance and reconnaissance (ISR) operations, special operations, cyber, targeting, intelligence collection and analysis, human intelligence, and space. Intelligence Officers should have balanced professional experience, to include demonstrated leadership, Navy, Joint, and IDC community operational proficiency and qualifications, and technical expertise. Proven and sustained superior performance in documented positions of leadership in challenging, operational assignments, while integrated into Naval or Joint Operations and often embedded in the fleet, is the ultimate test of readiness for selection.

b. A limited number of Naval Intelligence billets support the DoD-wide, joint service RAIDER CUTLASS initiative. Officers selected to perform these sensitive duties are extensively screened and complete demanding proficiency training and multiple-tour operational assignments that can preclude them from acquiring joint duty credit and serving in traditional command and milestone billets. Due consideration should be given to outstanding performance by members in RAIDER CUTLASS assignments with the understanding that limited details of their activities may be provided in an unclassified "not observed" or "1 of 1" fitness report, given the sensitive and unique nature of their duties.

c. All fully qualified Intelligence captains should have demonstrated superior performance in their commander milestone tour (AQD GB2), and/or command tour (note: command opportunities are limited). An Intelligence captain is expected to excel in OPINTEL as a core competency. Additional valuable achievements include a competitive Intelligence center/staff tour (Navy or Joint), COCOM/HQ/OPNAV tour, progression towards JQO completion, and assignment diversity within GCCs/afloat/NSW/Expeditionary/

Subj: ORDER CONVENING THE FY-17 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE ON THE ACTIVE-DUTY LIST OF
THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF CAPTAIN

numbered fleets/Washington DC, although specialization in these
areas should be limited to 3-4 tours. The best qualified
officers should have a track record of successful tours in
quantifiable leadership positions.

A handwritten signature in blue ink, appearing to read "Ray Mabus", is written in a cursive style. The signature is positioned above the printed name "Ray Mabus".

Ray Mabus
